8kg UltimateCare 900 heat pump dryer. With an 8kg capacity, 3D Sense technology and a huge range of features, you will enjoy exceptional results every time. The innovative heat pump system ensures gentle drying, high performance and energy efficiency with a 8-star energy rating. Plus the Advanced SensiCare function gently dries your clothes without over drying.

Product Details

FEATURES

Woollens and silks programs

Special programs for easy iron

Reversing tumble action

Time drying

Drum Light
Extra visibility with the brilliant LED Drum Light

Drain kit included
Drains excess water so you don't need to empty the water tank manually

BENEFITS

GOODBYE UNEVEN DRYING.
Say goodbye to unevenly dried clothes, and hello to precision drying. The 3DSense technology measures the humidity and dampness of the load and adjusts the drying time accordingly to ensure all fabrics, even silk and wool, will be dried with optimal, precise care and giving consistent results, every time.

Advanced SensiCare
Your clothes will be dried almost perfectly with Advanced SensiCare. Humidity sensors are activated throughout each cycle to eliminate over drying, which can be harmful to fabrics. So, you enjoy optimal drying accuracy, along with exceptional care and performance.

Careful drying, every time
With Electrolux Delicate Care technology, every garment is dried at the temperature that suits it best. The fast drum movement on the wool cycle ensures wools are kept flat to reduce shrinkage. Alternatively select the silk cycle to ensure your delicate silks are gently kept aloft to keep their shape. The dryer measures the exact humidity and temperature to protect from over-drying, while the intuitive tumble action helps dry clothes more gently and evenly. So, when you open the door, your clothes will look and feel fresh and ready to wear again.

Gentle on the ears
Inverter technology is designed to be discreet and unobtrusive. Feel free to turn your dryer on any time of the day or night, without it interfering with anything else youre doing.

Woolmark Blue Accreditation
Taking care of your precious woollen garments is now even easier with our advanced Woolmark Certified Woollen cycle. Created especially for hand wash only woollen garments, you can now safely dry your woollens without shrinking.

Nice on knits
Our Woolmark Blue certification ensures your prized hand wash only woollens can be dried safely, with no felting or shrinking.

Ultimate Care Heat Pump System
The innovative Heat Pump System is kind to your clothes and your energy bills. Designed for increased energy efficiency and exceptional performance, our heat pump dryer uses significantly less energy compared to our standard condenser and gently dries clothes at a lower temperature.

Large Reversible Door
Everyones laundry is different. Thats why we designed a large reversible door to accommodate those tight spaces and side-by-side installations. You can easily change the direction of the door opening yourself to suit your requirements. Plus, the large door size also allows you to load and unload your dryer with ease.

Soft Touch Drum
With its raised circular texture, the Soft Touch Drum creates a gentle environment for delicate clothing by minimising prolonged contact clothing makes with the drum.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	2
Dryer Type	inverter heat pump
Capacity (Kg)	8
Wall mount option	no

DIMENSIONS

Total height (mm)	850
Total width (mm)	600
Total depth (mm)	662

ENERGY

Energy Efficiency Star Rating	8
Energy Consumption (KWhr/yr)	130

CONTROLS

Type of controls	Touch button,rotary
Options available	delay start,Extra Anticrease,Reverse Plus,End Alert,time dry,extra silent,internal drum light,Dryness,Time Dry
Type of display	LCD

BUTTON FUNCTIONS

Reminder/ Indicators	end of cycle,empty water container,child safety lock door,time remaining,child lock
