BENEFITS

NEXT-LEVEL BAKING WITH STEAM
With SteamBake, you can create bakery-style bread in your own home. The added steam allows dough to rise more effectively than conventional heating. The steam helps to create an exquisitely soft centre, while the combination of hot air delivers deliciously glossy crusts.

ACCESS ALL AREAS WITH EASE
Telescopic runners make it easy for you to slide trays in and out of the oven. This provides safe, effortless access, making it easier to baste during cooking or check on how a dish is coming along. The runners also make light work of lifting and removing hot trays or heavy dishes.

EASY OVEN DOOR REMOVAL
No more trying to scrub your ovens hard-to-reach places. With one flick of the hinges the door frame can be easily slid out. Once removed, the glass panels can be detached from the frame, making it easy to clean the whole surface of the door.

EXTRA-SAFE TRIPLE GLAZING
A three-layer glass door keeps the oven cool to touch, even when oven is running at its maximum temperature of 250C. The ultra-safe, shatterproof internal glass is reflective to direct heat back into the oven.
