BENEFITS

Ultimate Care Heat Pump System
The innovative Heat Pump System is kind to your clothes and your energy bills. Designed for increased energy efficiency and exceptional performance, our heat pump dryer uses significantly less energy compared to our standard condenser and gently dries clothes at a lower temperature.

Advanced SensiCare
Your clothes will be dried almost perfectly with Advanced SensiCare. Humidity sensors are activated throughout each cycle to eliminate over drying, which can be harmful to fabrics. So, you enjoy optimal drying accuracy, along with exceptional care and performance.

Soft Touch Drum
With its raised circular texture, the Soft Touch Drum creates a gentle environment for delicate clothing by minimising prolonged contact clothing makes with the drum.

Large Reversible Door
Everyones laundry is different. Thats why we designed a large reversible door to accommodate those tight spaces and side-by-side installations. You can easily change the direction of the door opening yourself to suit your requirements. Plus, the large door size also allows you to load and unload your dryer with ease.
