BENEFITS

COMPLETE AIR QUALITY

A four-step air purification system captures up to 99.98% of particles as small as 2.5 micrometer (PM2.5) in size*. *Based on tests conducted by GTT Laboratory in Nov 2020 according to GB/T 14295-2008 standard.

REMOVES UNPLEASANT ODOURS

Your indoor air will stay fresher and healthier for longer thanks to the active carbon filter which provides exceptional absorption of common household odours. Unpleasant smells from pets, garbage or cooking, as well as Volatile Organic Compounds (VOCs) found in some chemicals, are trapped for good.

SMART FILTER INDICATOR

Each filter is equipped with a Smart Tag that measures the fine particle exposure and remaining filter life. The App will indicate when it's time to replace your filter.
