

**30cm 2 zone induction cooktop with PowerBoost, Stop and Go function, and touch and slide control.
COMMERCIAL EXCLUSIVE**

Product Details

FEATURES

PowerBoost

PowerBoost gives you an intense heat boost to bring water to the boil quickly.

Stop + Go' pause function

Stop + Go' function sets zones to the lowest setting to keep dishes warm and prevent overcooking.

Auto pot detection

Pot detection sensors illuminate the controls that match the cooking zone.

Auto heat-up

Auto heat-up provides a boost of heat so you don't have to wait as long when you start cooking.

Timer

Timer automatically turns off the hob after cooking for extra peace-of-mind.

AutoOff

The AutoOff function will automatically shut off the hob if it detects that something is amiss.

Induction

Induction only heats directly beneath the pan, making it quick, easy-to-clean, efficient, and safe.

Power management

Power management redistributes the electrical load to prevent electrical outages.

BENEFITS

3 YEAR WARRANTY

Because peace of mind should last as long as great design, three years of trusted Electrolux support. *Available for purchases after 1 March 2026.

SEAR. STIR-FRY. BOIL.

The PowerBoost function gives you an intense heat boost when needed, before automatically dropping to the highest power level. Perfect for pan searing fish, stir-frying crunchy vegetables, or bringing water to the boil quickly.

ONE TOUCH TO PAUSE

The pause function is handy if you're suddenly interrupted or must leave the kitchen momentarily. At the touch of a button all cooking zones will be reduced to the lowest heat setting to ensure dishes stay warm, but don't overcook.

PLACE POT, ACTIVATE CONTROLS

Let the hob adapt your cooking style, not the other way around. Sensors automatically detect where you place pots on the cooking surface and illuminate the controls, making it easy for you to control each specific area.

BOOST TO GET STARTED

Don't have the time to wait for the water to boil? Then give it a boost to get going. After selecting the required setting, Auto heat-up boosts the power to get up to temperature faster, so that you can get cooking as quickly as possible.

IT'S ALL ABOUT TIMING

Do you sometimes forget to turn off the hob after cooking? You don't have to worry if you set the timer. When the time is out and you're done cooking, your hob will automatically shut off for extra peace-of-mind.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	3
---------------------------------	---

Cooktop type	induction
--------------	-----------

Materials/Colour	black ceramic glass
