Product Details

FEATURES

LP Conversion Kit

An LP conversion kit is supplied with all models for conversion by and qualified installer.

Flame Monitor System

Provides peace of mind for the user. If flame goes out, gas will be cut off immediately, requiring restart to resume cooking.

Designer Integrated Hob

This unit can be matched with a range of different hobs, 30 or 60cm or electric including the bbq/deep fryer. Design will blend with any product. Hob design provides in-built spillage containment.

Electronic ignition

Electronic ignition operates via control knobs. No need for untidy matches or gas guns. Total convenience for the user. The igniter is concealed under burner cap and held in position by the burner base. This ensures the igniter stays aligned even during cleaning, in the correct position and won't be knocked out of alignment when cleaning.
