BENEFITS

Freedom to mix and match

With 10 different Electrolux Modular fridges and freezers to choose from, you can create up to 25 combinations for a customised solution that meets your unique style. Whether you choose a single or modular combination, you'll be sure to find a model to perfectly match your kitchen and lifestyle.

Flexible interiors

Create your ideal fridge interior with our flexible range of options. The Spillsafe glass shelves can be easily adjusted and also cleverly contain any spills to the one shelf to help minimise cleaning. And when you need more space, you can adjust the door bins or utilise the slide-away shelf, which simply slides in half when required.

Keep food fresher, longer

Our intelligent airflow system provides the ultimate in freshness. Designed to disperse air evenly throughout the fridge to ensure an optimum temperature, the airflow creates a cold wall that is evenly drawn through the refrigerator compartment. The result is fresh food that lasts a whole lot longer.

Mark-resistant stainless steel

With an invisible, mark-resistant coating to help protect the exterior from fingerprints and grime, it couldn't be easier to keep your fridge in pristine condition.
