BENEFITS

NEXT-LEVEL BAKING WITH STEAM
With SteamBake, you can create bakery-style bread in your own home. The added steam allows dough to rise more effectively than conventional heating. The steam helps to create an exquisitely soft centre, while the combination of hot air delivers deliciously glossy crusts.

NO NEED FOR ELBOW GREASE
High temperature pyrolytic cleaning burns away oven grease and grime for easy cleaning, without any need for water or chemicals. Simply set the pyro program and wipe the oven clean afterwards. The oven door is also quadruple-glazed to reduce the temperature of the door during cleaning.

ACCESS ALL AREAS WITH EASE
Telescopic runners make it easy for you to slide trays in and out of the oven. This provides safe, effortless access, making it easier to baste during cooking or check on how a dish is coming along. The runners also make light work of lifting and removing hot trays or heavy dishes.

GENTLY OPENS. QUIETLY CLOSES.
The SoftMove door allows for an efficient and pleasant interaction with your oven. The door will maintain an angled open position if needed and will close softly and quietly with a gentle push.

EASY OVEN DOOR REMOVAL
No more trying to scrub your ovens hard-to-reach places. With one flick of the hinges the door frame can be easily slid out. Once removed, the glass panels can be detached from the frame, making it easy to clean the whole surface of the door.
