COOKING GUIDANCE AT A TOUCH

The CookSmart Touch display effortlessly guides you to perfect cooking results. Cook more efficiently, save your favourite recipes in the app, and send them straight to the oven for simple, smart cooking.

A TOUCH OF STEAM: THE SECRET TO PERFECT BAKING

Add a touch of steam for artisan style results at home. Add water to our inbuilt well to create steam for golden crusts and soft, airy centres, ideal for bread, pastries, and delicate bakes. Because perfect texture starts with perfect moisture.

AIRFRY MEETS STEAM

Get the best of both worlds, crispy on the outside, tender on the inside. By adding steam to AirFry, keep your drumsticks, chops or crumbed fish juicy whilst achieving that irresistible crunch.

AN OVEN THAT CLEANS ITSELF

Pyrolytic cleaning heats the oven to a high temperature, turning grease and grime to ash. Just wipe clean afterwards no water or chemicals needed. The multi-layer glass door stays cooler to touch.

TAKE THE GUESSWORK OUT OF COOKING

Use the smart food probe to monitor the core temperature of your food. It automatically switches off the oven when your dish is done, so you get juicy roasts, tender poultry, and flawless results without lifting a finger.

ACCESS ALL AREAS WITH EASE

Telescopic runners make it easy for you to slide trays in and out of the oven. This provides safe, effortless access, making it easier to baste during cooking or check on how a dish is coming along. The runners also make light work of lifting and removing hot trays or heavy dishes.
