Results may vary depending on factors such as models, load size, type and duration of soiling, detergent type and water hardness.

IntelliQuick
IntelliQuick selects the best
suited programme based on
your laundry load size for
precise care.

# **BENEFITS**

### PRECISE DOSE, UP TO 60% LESS DETERGENT

The UltimateCare 900 IntelliDose Machine uses sensors to deliver the optimal detergent dose for every load. With SensorWash, sensors detect any dirt left in your laundry during a cycle before adding a second dose of detergent if necessary. The machine also calculates the correct laundry time, water and energy, adding the precise amount of detergent and internal test shows it may help to reduce up to 60% the amount of detergent used for a 2 kg load.

#### QUICK 10KG WASH IN 45 MINS

New IntelliQuick smartly selects the quickest programme based on your laundry load for precise care and cleans 10kg load in 45 minutes. This removes any pre-laundry stress by providing efficient cleaning with the precise level of care for your clothes, making them last longer without additional energy or water usage.

#### PROTECT AND CARE FOR WOOL

The Wool Care programme is suited for machine washable wool cleaning and drying without shrinking.

# NO VISIBLE DETERGENT RESIDUE\*

With the UltraMix technology, detergent and softener are thoroughly dissolved and activated before they enter the drum. This helps to ensures that your clothes are cleaned with no visible detergent residue at the end of the cycle.\*\*Tested on a 3kg mixed load, using recommended powder detergent dosage. Results may vary depending on load size, detergent type and water hardness.

# RIGHT SETTINGS TO HELP SAVE

Select the cycle and tune the intensity according to your needs. Based on your choice, SmartSelect will provide feedback, adjusting the programme length and temperature, guiding you to save energy, time and water.

### SANITISE YOUR CLOTHES\*

The Sanitise Program, verified by Swissatest, combines a wash cycle and steam at above 60°C to remove more than 99.99% of common bacteria and viruses\*. Pollen and allergens are also reduced for hygienically clean clothes after every wash.\* Tested for Candida albicans, MS2 Bacteriophage and Escherichia coli in external test performed by Swissatest Testmaterialien AG in 2021 ("Test Report No. 202120117, 20232072").

### DEDICATED CARE FOR DELICATES

DelicatesPlus helps extend the lifetime of your favourite clothes with optimised drum and washing motion and speed. DelicatesPlus is designed to offer gentle care for all your delicates, including premium cottons helping them last by reducing wear and tear from washing over time.

# REFRESH WITHOUT WASHING

Quickly revitalise your garments and smooth out creases in under 30 minutes with the VapourRefresh cycle. Your clothes will emerge refreshed, with less wrinkles compared to air drying.\*\*Less wrinkles vs. air drying - tested and certified by THTI

### PERFECT WASHING WITH SENSORS

Wash out stubborn stains without the need for pre-treatments. SensorWash technology uses unique sensors to automatically detect dirt and soil levels and then adjusts the cycle duration accordingly. Can help to remove up to 53 different visible stains including oil, ketchup, fruits puree and pizza.\*\*Tested on 5kg load stains from food, household and personal products using Cotton 40°C cycle + StainPro option. Results may vary depending on factors such as models, load size, type and duration of soiling, detergent type and water hardness.
