

Electrolux Perfect Wash System 9kg, 1400rpm maximum spin speed, Time Manager function, Load Sensor, Inverter motor, full touch screen control with LCD display, 5 star water rating, 3.5 star energy rating

Product Details

FEATURES

Load Sensor

Displays laundry weight, this ensures optimal time, water and energy efficiency.

Time Manager

With variable wash time and delayed start.

Woolmark Apparel Care**Silent Inverter Motor**

Wash day or night with the Extra Silent Cycle

5 star WELS rating**Jetsystem**

Jetsystem gives a constant, gentle shower that massages the water and detergent through your wash

Vapour Refresh

Vapour Refresh program uses vapour to help remove wrinkles and odours.

AquaStop

Peace of mind with AquaStop anti-flood protection.

Gentle Drum

More smaller holes allow water to pass in and out of the drum quickly, while also helping to reduce pulling of your clothes during high-speed spinning.

Extra-Large Door Opening**The "Favourite" program**

allows you to save your favourite wash at the touch of a button

Cycle start/pause button

BENEFITS

Load Sensor

Designed for an unsurpassed performance, the Load Sensor feature conveniently displays the laundry weight of every wash. This ensures you get the most out of each load with optimal time, water and energy efficiency. Now you can always wash at full capacity, avoid overloading your machine and even save on the number of washes you do each week.

Time Manager

Created to adapt to busy lifestyles, Time Manager puts you in control of every wash. Featuring both a variable wash time and delayed start, this convenient feature lets you select the time you want your wash to end. You can do your wash whenever it suits you. There is even an 18-minute Quick Wash for those lightly soiled items that you need washed super fast.

Woolmark Apparel Care

Taking care of your precious woollen garments is now even easier with our advanced Woolmark Certified Woollen cycle. Created especially for machine washable woollen garments, you can now safely dry your woollens without shrinkage.

Silent Inverter Motor

The Silent Inverter Motor ensures every wash is ultra-quiet. Not only will you never be disturbed by a noisy washer again, you'll also be able to save on electricity costs by washing during off-peak times with the Extra Silent Cycle. This quiet motor is extremely durable and features an improved wash action.

Gives your clothes the superior care they need

Jetsystem gives a constant, gentle shower that massages the water and detergent through your wash

Vapour Action

Vapour Action helps keep your clothes looking and feeling as good as new. This innovative 21-minute Refresh program helps revive and freshen garments without water or detergent. The cycle uses vapour to remove wrinkles and odours, so you can revitalise tired-looking clothes with ease.

Gentle Drum

Designed to minimise the stretching of fabrics and provide a softer wash, the Gentle Drum ensures excellent wash results every time. Its smaller holes allow water to pass in and out of the drum quickly, while also helping to reduce pulling your clothes during high-speed spinning. Clothes are also lifted and rotated gently in the drum for an exceptional washing performance.

Extra-Large Door Opening

The extra-large door opening was designed to make loading and unloading your machine a breeze. With easy access to the inside drum, you will enjoy better visibility so you never miss those smaller items.
