Swedish Design and Manufacture

This product has been designed and manufactured in Sweden to the highest quality standards you'd come to expect from the market experts.

Everything Needed to Keep Your UltraFlex Vacuum Performing
Global research shows that an average household collects between 14L - 17L of dirt each year. With this in mind Electrolux has created a value pack of all the consumables required to keep Electrolux vacuums performing at their best for up to 1 year.

Motor Protection

The washable motor filter protects your vacuum cleaner motor from dust particles inside the dust container. Replace your filter at least twice a year or when it becomes visibly soiled.

Easy to Change Filters

An easily accessible filter makes maintaining your vacuum a breeze.

Rid Homes of Allergens and Bacteria

The filtration included in this kit purifies air by up to 99.95%, capturing harmful allergens and bacteria.

No Offensive Odours

S-fresh lemon spreads a delicate but distinctly clean lemon scent throughout your home every time you vacuum. Easy to use, simply open the sachet, scatter granules on floor and then vacuum up.
