Everything Needed to Keep Your SuperCyclone Vacuum
Performing
Global research shows that an average household collects
between 14L - 17L of dirt each year. With this in mind
Electrolux has created a value pack of all the consumables
required to keep Electrolux vacuums performing at their best
for up to 1 year.

Rid Homes of Allergens and Bacteria
The filtration included in this kit purifies air by up to 99.95%,
capturing harmful allergens and bacteria.

Easy to Change Filters
An easily accessible filter makes maintaining your vacuum a
breeze.

Swedish Design and Manufacture
This product has been designed and manufactured in Sweden
to the highest quality standards you'd come to expect from the
market experts.

No Offensive Odours
S-fresh lemon spreads a delicate but distinctly clean lemon
scent throughout your home every time you vacuum. Easy to
use, simply open the sachet, scatter granules on floor and then
vacuum up.

Motor Protection

The washable foam filter and the motor filter protect your vacuum cleaner motor from dust particles inside the dust container. Cut the motor filter using indications printed directly on the filter. All filters should be replaced regularly, at least twice a year or when they become visibly soiled.

Clean Air

The HEPA 12 filter captures even the finest particles of pollen, mould spores, dust mite faeces and allergens, purifying 99.5% of the air leaving the vacuum cleaner.
