Heat Pump Technology

SpeedDry

MixDry

SensorDry

Direct Drain

BENEFITS

Fast Drying in 30 minutes

Get your light wear and uniforms dry and ready to wear in just 30 minutes* with the SpeedDry program giving you more time back in your day. *Internal test conducted on the SpeedDry cycle using 0.5 kg of light garments load, with initial moisture content lower than 50%. Drying results may vary depending on load and environmental conditions.

Dry smarter, not harder: MixDry simplifies laundry

Say goodbye to sorting and hello to simplicity. Our MixDry cycle allows you to dry cottons and synthetics together, saving you time and allowing you to focus on what truly matters.

Dry without damage

Our SensorDry technology detects when your load is dry enough and ends the cycle instead of just running on a set time, so that you end up with undamaged laundry that's not been over-dried.

No more emptying tanks, just set and forget

Connect your tank directly to your sink to allow for automatic drainage of water build up. to avoid the hassle of constantly needing to empty the water tank each time.
