Product Details

FEATURES

PowerReady Induction connects to standard household power	PowerBoost	Hob2Hood	Pause
Touch control	Child safety device	QuickCook Timer	Easy clean ceramic surface
Residual heat indicator			

BENEFITS

Switch to induction without switching your power
Switching to induction has never been simpler. Our PowerReady Induction cooktops are designed to work with standard household power, removing the need for complex electrical upgrades*. Less hassle, more time to enjoying great cooking. *For installation please consult a licensed electrician.

Zero to Boil in no time
With PowerBoost, you can rapidly boil a pot of water or quickly heat up a frying pan. Spend less time waiting and more time creating your favourite meals.

Hold everything with our clever Pause function
We know that family life is full of distractions. That's why you'll appreciate our clever Pause function. Simply touch the Pause icon on your cooktop and all operating induction zones will drop to the lowest setting. When you're ready to go again, hit Pause again and settings will return to where you left off.

Clear the air with Hob2Hood
With Hob2Hood technology, compatible rangehoods work seamlessly with your induction or ceramic cooktop to clear your kitchen of cooking smells and steam. As you start cooking, the rangehood will automatically turn on then intuitively adjust the fan speed and airflow to match your cooking. How's that for hands-free convenience?

Timed to perfection
Never over-cook or burn dinner again. Just set the cooking time and your cooktop will automatically turn the heat off for you.

Easy cleaning, done fast
The smooth ceramic surface wipes clean in seconds, so spills and splatters dont stick. It keeps your cooktop looking tidy with less effort.

Specifications
