

UltraOne is the strongest Electrolux vacuum cleaner in terms of suction. Being a bagged vacuum cleaner with excellent filtration this machine is ideal for allergy or asthma sufferers. UltraOne Green has environmentally friendly features and a sleek design as well as higher dust pick up performance in comparison to previous UltraOne models. Everything about UltraOne has been designed to make vacuuming as easy and hassle-free as possible.

Product Details

FEATURES

AeroPro Extreme Technology nozzle
Ideal for hard floors and carpet.

AeroPro Turbo Brush Nozzle
Designed to remove pet hair on the floor

AeroPro hard floor nozzle
Ideal for delicate surfaces.

Rotary electronic speed control
with 5 different suction power settings

Auto suction
Automatically detects floor suction pressure and adjusts level of power required for the specific floor type

Excellent manoeuvrability

This product is entitled to Platinum Service, a premium offering to enjoy peace of mind after purchase. Benefit from a direct product replacement in the unlikely event of a major product fault. T&C's apply. Call the Platinum Service line on 1300 365 305

BENEFITS

Extremely powerful suction
UltraOne delivers what its name promises: ultra efficient vacuuming. The secret behind the extremely strong dust pick-up is its powerful motor combined with high airflow and an efficient nozzle. The result, powerful cleaning performance on all surfaces.

Excellent filtration, cleaner air at home
As an ideal vacuum for allergy or asthma sufferers, UltraOne retains an impressive 99.999% of the dust particles it vacuums. This means captured micro-dust and allergens remain inside the machine instead of being released back into the air, all thanks to its 5 layers of filtration and a completely sealed filtration system.

Environmentally friendly

UltraOne Green is made from 65% of recycled plastics and it consumes 65% less energy (compared to a typical vacuum cleaner with 2000W motor), all without compromising on its powerful performance.

Top class design and agility

The large display front panel on UltraOne shows a clear view of the power settings and indicators while its big operating buttons on the sides allow for easy foot access. A 360 front wheel allows the vacuum to roll effortlessly whilst its soft rear wheels offer superb manoeuvrability and protect delicate floor surfaces.
