#### TOOLS YOU WILL NEED (not supplied)

#### WARNING

Electrolux/Westinghouse takes no responsibility for incorrectly assembled doors leading to injury or malfunction.

#### CAUTION

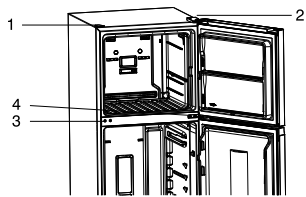

Refrigerator must stand for 30 minutes prior to connecting to power supply to ensure system functions correctly.

#### IMPORTANT

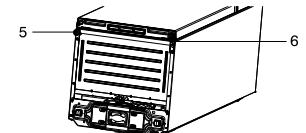

All hinge screws require tightening to a torque setting of 5-10Nm.

### FRIDGE DESCRIPTION

Top view of right hand hinge cabinet

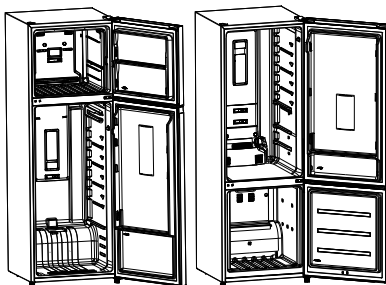

Bottom view of right hand hinge cabinet

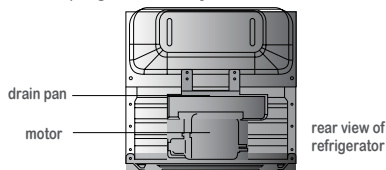

- 1 Cover top cabinet WH
- 2 Hinge top right and hinge top cover right
- 3 Cover hole mullion
- 4 Hinge centre right and screws
- 5 Adjustable foot
- 6 Hinge bottom assembly right

### INSTRUCTIONS

1. Ensure refrigerator is empty of all loose items and unplugged from power source.

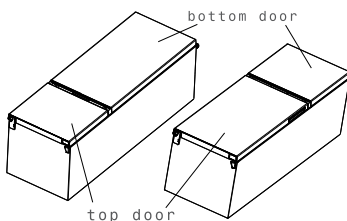

2. Store power cord next to motor to prevent damage. Check for water in drain pan and remove any water with a cloth or sponge if necessary.

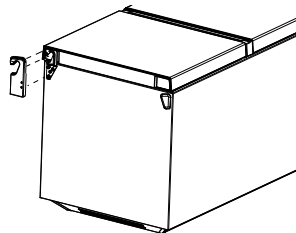

3. Lay the refrigerator on its back.

#### WARNING

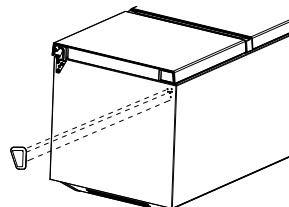

Your refrigerator is heavy - you may need assistance.

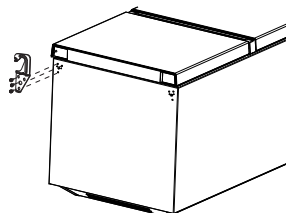

4. Remove the hinge cover with a soft plastic lever.

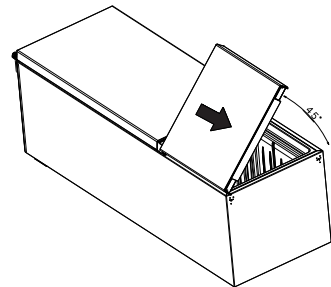

5. Remove the LH cap with a soft plastic lever.

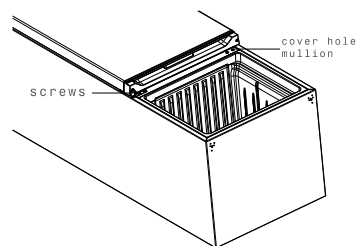

6. Unscrew top hinge screws and remove RH top hinge. Do not discard screws.

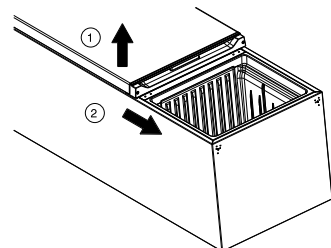

7. Remove top door by opening 45° and gently slide off hinge. Set door aside to prevent damage.

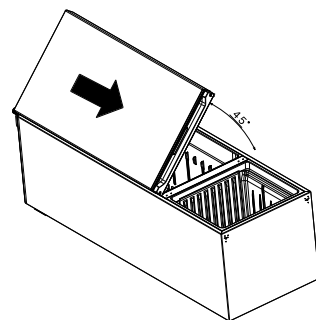

8. Unscrew 2 centre hinge screw. Remove the cover hole mullion with plastic lever. Do not discard screws (if screws loosen can be use spare in kit content).

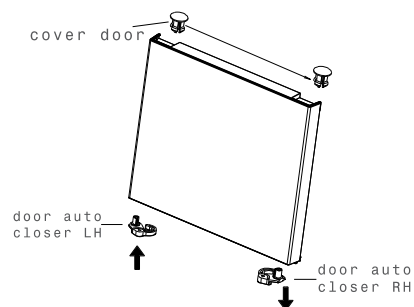

9. Remove RH centre hinge by lifting the door slightly and sliding hinge out of the door.

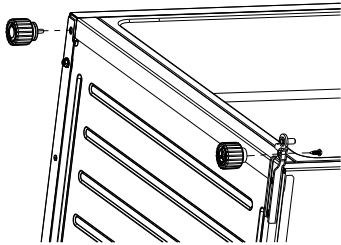

10. Remove bottom door by opening 45° and gently slide off hinge. Set door aside to prevent damage.

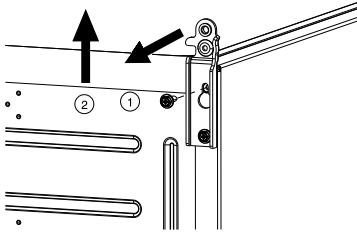

11. Remove the cover door from top door and assemble it on the other side. Remove the RH door auto closer and replace with LH door auto closer (kit content) on the other side. Repeat the same step with bottom door.

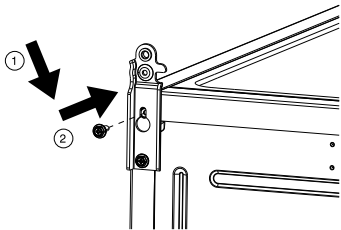

12. Unscrew the hinge foot using phillips head screwdriver and unscrew foot on opposite side. Do not discard.

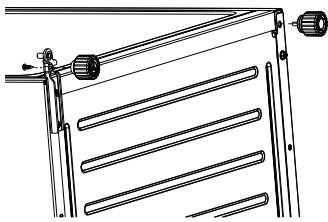

13. Unscrew the bottom hinge screw shown, pull the hinge away from cabinet then up to remove.

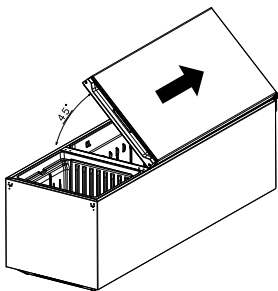

14. Place the bottom hinge LH (kit content) onto the cabinet, placing it down then towards cabinet to install. Replace the screw.

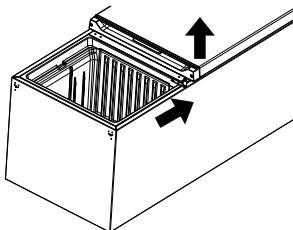

15. Replace the hinge foot onto the LH bottom hinge and tighten with screw. (for the MK kit, do not just place the RH foot).

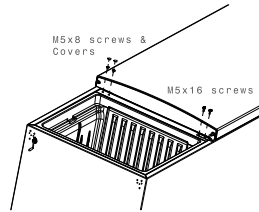

16. Replace the bottom door by holding at 45° and gently slide onto the bottom hinge and close the door.

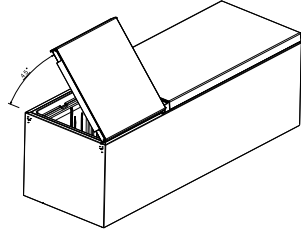

17. Replace LH centre hinge (kit content) by lifting the door slightly and sliding hinge into the door and placing the door down again.

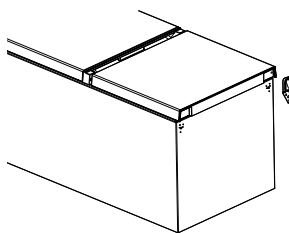

18. Insert M5x16 screws from existing centre hinge into the LH centre hinge, tighten the screw until the bracket is secured. Assemble 2 phillips head screws M5x8 and covers (kit content) on the other side as show in below .

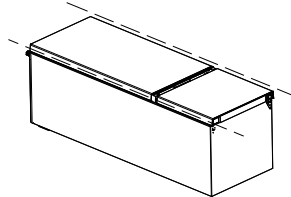

19. Replace the top door by holding at 45° and gently slide onto the centre hinge and close the door.

20. Slide the LH top hinge (kit content) into the door, loosely screw screws from the existing top hinge in the cabinet.

21. Ensure that the edges of the doors are parallel with the sides of the cabinet.

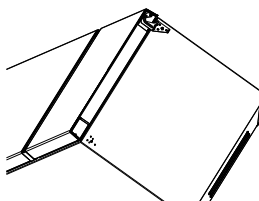

22. Ensure that the bottom door and the top door have a parallel gap.

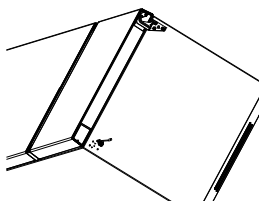

23. Fully tighten the LH top hinge to the cabinet until the hinge is secure.

Without sensor

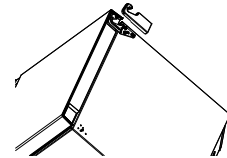

With sensor

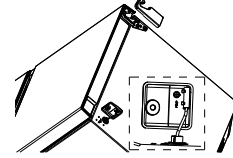

24. Clip the LH hinge cover (kit content) over LH top hinge. For the spec with sensor insert the ambient sensor into RH top cover (Kit content). (for the MK kit, do not just place the RH top cover)

Without sensor

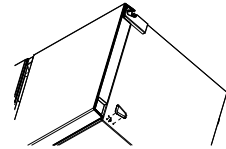

With sensor

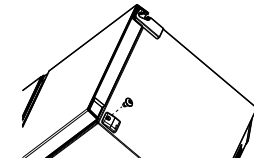

25. For the spec without sensor Insert the RH top hinge hole cap (kit content). For the spec with sensor insert the RH top cover (kit content) and tighten one screw M5x8 (kit content). (for the MK kit, do not just place the RH top cover)

Without sensor

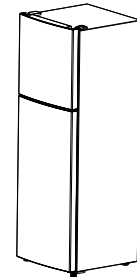

With sensor

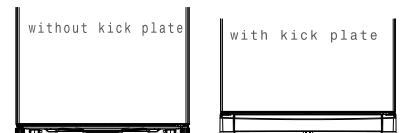

26. Stand the refrigerator upright.

**⚠ WARNING**

Your refrigerator is heavy – you may need assistance.

27. Level the cabinet by adjusting the foot.

\*\* It is recommended to apply a small amount of silicone grease (Molykote 140113826022 or equivalent – not provided with kit) on all pivoting pin of left hand hinges for lubrication.
